

Local Electronics Store — Digital Platform

Client Presentation

March 2026

Website	Android App	Tally Integration	Push Notifications
Next.js + Vercel	Expo APK	Auto sync	Real-time offers

electrozone-frontend.vercel.app

Project Overview

ElectroZone ek complete digital platform hai jo local electronics stores ke liye banaya gaya hai. Customers online products browse kar sakte hain, orders place kar sakte hain, aur store se kharida hua saman bhi apne phone se dekh sakte hain — sab kuch ek jagah.

Customer	Store Owner	Admin
Browse products Order online Bill history Push notifications OTP login	Products manage Used phones Tally integration Billing system Offer notifications	Store approval Banner management Tally API keys Subscriptions

Tech Stack

Component	Technology	Hosting
Frontend Website	Next.js 16 + Tailwind CSS	Vercel (Free)
Backend API	Node.js + Express + Prisma	Render (Free)
Database	PostgreSQL	Supabase (Free)
Mobile App	React Native + Expo	APK Download
Image Storage	Cloudinary	Free tier
Push Notifications	Expo + Firebase FCM	Free

Key Features

Tally Integration

Tally Prime se bills automatically sync hote hain. Jab store owner bill banata hai, customer ke phone pe apne aap dikh jaata hai.

Push Notifications

Store owner directly customers ke phone pe offers aur deals bhej sakta hai. Custom message, templates, aur history sab available.

Bill History

Customer apne phone number se login karke store se liye gaye saare purchases dekh sakta hai — GST, discount, items sab ke saath.

Used Phones

Store owner used phones list kar sakta hai photos ke saath. Bik jaane pe Cloudinary se automatically delete ho jaata hai.

Admin Panel

Store approval, banner management, Tally API keys — sab kuch ek jagah manage hota hai.

Mobile App

Android APK available hai. Customer login persist rehta hai, Store Purchases tab mein bills dikh te hain.

How It Works

Customer Flow

1. App/Website	2. OTP Login	3. Browse	4. Order	5. Track
Open app ya website	Phone se login karo	Products dekho	Order place karo	Status track karo

Tally Bill Sync Flow

1. Tally Bill	2. Connector	3. Server	4. Customer
Store owner bill banata hai	Auto sync hota hai	Bill save hota hai	Phone pe dikh jaata hai

Notification Flow

1. Owner	2. Message	3. Send	4. Customer
Dashboard pe jaao	Title + offer likho	1 click mein bhejo	Phone pe notification aata hai

Live Platform

Platform	URL / Details
Website (Customer)	electrozone-frontend.vercel.app
Backend API	electrozone-backend.onrender.com
Admin Panel	electrozone-frontend.vercel.app/admin/login
Store Owner Login	electrozone-frontend.vercel.app/auth/store-login
Android App	APK file — direct install

Pending / Future Features

Feature	Status
Razorpay Payment Integration	Pending — KYC required
SMS OTP (WhatsApp)	Pending — API needed
Tally Connector Setup	Pending — store side setup
iOS App	Future
Multi-vendor expansion	Future
